WHO WE ARE

BUILT ON TWO DECADES OF FRONTLINE DELIVERY

01

Apex Pipeline Solutions is a Western Australian civil, mining and pipeline contractor delivering **reliable, high-quality construction, hydraulic and workforce solutions** across Australia's infrastructure and resource sectors.

The company was founded by directors Ryan Duggan and Aaron Jordan, who first worked together in 2018 on gas infrastructure projects and went on to hold leading hand and supervisory roles across major civil, mining and utility projects throughout Australia. Apex Pipeline Solutions brings that hands-on, field-proven experience together under one banner — a business built on a strong work ethic, quality workmanship and dependable client relationships.

We specialise in civil piping, poly welding, drainage, gas infrastructure and utility services, and back our delivery teams with labour hire and plant hire capability — sourcing experienced tradespeople, skilled operators and reliable machinery to suit each project. From planning through to testing, commissioning and completion, our focus is simple: reduce client pressure and deliver safe, efficient, cost-effective outcomes on every project we undertake.

> **"OUR COMMITMENT IS TO BUILD LONG-TERM PARTNERSHIPS THROUGH PROFESSIONALISM, SAFETY, RELIABILITY AND CONSISTENT PERFORMANCE — ON EVERY PROJECT, EVERY TIME."**

LEADERSHIP

OUR DIRECTORS

02

Apex Pipeline Solutions is led by two working directors who remain hands-on across every project — combining practical trade expertise with proven leadership on major civil, mining and infrastructure works.

RYAN DUGGAN

OWNER · DIRECTOR · PROJECT LEAD

Ryan is a highly experienced and qualified plumbing professional with an extensive international background spanning Ireland, New York, Sweden and Switzerland. Since entering the industry at 18, he has built a diverse career across major civil, mining, infrastructure, commercial, industrial and mechanical projects, developing advanced expertise across water, gas, drainage, HDPE and mechanical piping systems and underground services. Progressing into Leading Hand and Supervisory roles, Ryan has overseen crews, coordinated daily operations and maintained strict safety and quality standards — bringing professionalism, attention to detail and a solutions-focused approach to every project.

AARON JORDAN

OWNER · DIRECTOR · PROJECT LEAD

Aaron is a results-driven civil and mining infrastructure professional with extensive experience delivering resource, infrastructure, drainage, bulk earthworks, utilities and pipeline projects across Australia. He has progressed from site-based operational roles into Leading Hand and Supervisory positions, with broad experience across civil construction, bulk earthworks, haul roads, underground services, pipeline installation, poly welding support and mining infrastructure for major clients including BHP, Rio Tinto, Fortescue Metals Group, APA Group, Mineral Resources and BCI Minerals. Aaron is recognised for his strong work ethic, workforce coordination and ability to adapt quickly in demanding metropolitan and remote environments.

A partnership since 2018. Ryan and Aaron first worked together on gasline projects in Adelaide, quickly building strong relationships with clients, supervisors and crews. That track record of working well as a team — and delivering safely and efficiently under pressure — is the foundation Apex Pipeline Solutions is built on.

WHAT WE DO

03

THREE INTEGRATED SERVICE STREAMS

Apex Pipeline Solutions delivers a flexible, solutions-focused service offering tailored to the evolving demands of each project — from bulk earthworks and drainage, through pipeline and hydraulic installation, to skilled labour and plant hire that keeps projects moving.

01
CIVIL · MINING

CIVIL & MINING CONSTRUCTION

Bulk and detailed earthworks, haul roads, drainage, underground utilities and infrastructure works delivered across the Pilbara, Perth Metro and regional Australia for Tier 1 clients.

EARTHWORKS | HAUL ROADS | DRAINAGE | UTILITIES

02
PIPELINE

PIPELINE & HYDRAULIC SERVICES

HDPE poly welding, pipeline installation and testing, mechanical and process piping, plumbing, drainage and gas services — turnkey from planning to commissioning.

POLY WELDING | MECHANICAL PIPING | GAS | PLUMBING

03
WORKFORCE

LABOUR HIRE & PLANT HIRE

Experienced tradespeople, operators and supervisors plus a dependable plant and equipment fleet — scaled to short-term, shutdown, long-term and project-based needs.

SKILLED LABOUR | OPERATORS | PLANT & EQUIPMENT

DETAILED CAPABILITY FOR EACH STREAM FOLLOWS ON THE PAGES BELOW.

SERVICE STREAM 01

CIVIL & MINING CONSTRUCTION

04

Apex Pipeline Solutions brings extensive experience across the civil and mining industries, with a delivery record spanning the Pilbara, Perth Metro and regional Australia. Our teams have contributed to large-scale infrastructure and non-process mining projects for major Tier 1 clients across a broad range of disciplines — from bulk earthworks through to finished civil infrastructure.

We provide a flexible, solutions-focused approach backed by practical field knowledge, strong safety standards and dependable plant and personnel.

UNDERGROUND SERVICES INSTALLATION — WATER, SEWER & ELECTRICAL

OUR CAPABILITIES INCLUDE

- Bulk & detailed earthworks
- Haul road construction & maintenance
- Highway road construction & upgrades
- Drainage, culverts & stormwater systems
- Underground utilities & infrastructure services
- Mine rehabilitation works
- Camp & remote infrastructure construction
- Load & haul operations
- Concrete & civil infrastructure works
- Renewable energy & utility infrastructure support

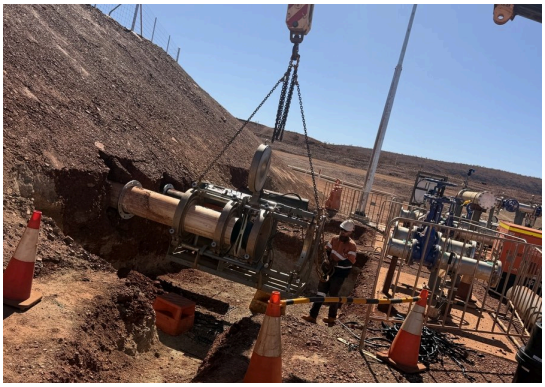

SERVICE STREAM 02

PIPELINE & HYDRAULIC SERVICES

05

Pipeline and hydraulic works are at the core of what we do. Apex Pipeline Solutions delivers professional solutions across plumbing, pipe fitting, poly welding, mechanical piping, drainage, gas services and underground utility installation.

With experience across major mining, infrastructure, water and industrial projects, we provide turnkey delivery — from planning and installation through to testing, commissioning and project completion.

HDPE BUTT-FUSION WELDING — MINE SITE PIPELINE

OUR SERVICES INCLUDE

- HDPE poly welding
- Pipeline installation & testing
- Mechanical & process piping
- Plumbing & drainage
- Gas installation services
- Underground utilities
- Water infrastructure works
- Pump stations & civil services
- Shutdown & maintenance support
- Infrastructure upgrades & renewals

SERVICE STREAM 03

LABOUR HIRE & WORKFORCE SOLUTIONS

06

Apex Pipeline Solutions understands the importance of having reliable, skilled personnel available when projects demand it. Through years of industry experience, we have built a strong network of experienced tradespeople, operators, supervisors and construction professionals across the civil, mining, infrastructure and mechanical sectors.

We provide workforce solutions for short-term, long-term, shutdown and project-based requirements — supplying qualified, safety-focused personnel ready to integrate seamlessly into site operations in metropolitan and remote environments.

SITE DELIVERY CREW — PIPELINE INSTALLATION WORKS

PERSONNEL WE SUPPLY

- Supervisors & Leading Hands
- Project Managers & Engineers
- Civil Operators — incl. Final Trim
- Pipe Fitters & Poly Welders
- Plumbers & Drainers
- Mechanical Fitters
- Electricians & HVAC Technicians
- Scaffolders & Riggers
- Welders & Boilermakers
- Concreters & Steel Fixers
- Carpenters & Trade Assistants
- Traffic Control, Safety & Site Support

PLANT & EQUIPMENT

PLANT & EQUIPMENT HIRE

07

Apex Pipeline Solutions provides reliable, well-maintained plant and equipment to support civil, mining, infrastructure and construction projects across Australia. Through strong relationships with trusted suppliers and industry partners, we give clients confidence that all equipment is delivered efficiently and backed by responsive support.

We work closely with clients to provide tailored plant hire solutions based on project scope, site conditions and scheduling — from short-term hire through to long-term project support — with planning, mobilisation and quotation support from our civil construction management team.

ESTABLISHED SITE INFRASTRUCTURE — PLANT-SUPPORTED DELIVERY

PLANT & EQUIPMENT AVAILABLE FOR HIRE

- Excavators — 1.5T to 90T
- Dozers
- Graders
- Front End Loaders & IT Loaders
- Skid Steers
- Tipper Trucks — 6 & 8 wheeler
- Water Trucks & Service Trucks
- Smooth Drum & Pad Foot Rollers
- Moxy Compactors
- Vac Trucks & Vac Trailers
- Jack Hammers & Rubber Ducks
- Light Vehicles & Machine Attachments

TRACK RECORD

PROJECT EXPERIENCE

08

The project experience below reflects the hands-on delivery record of our directors and team, gained on major civil, mining and pipeline projects across Australia — the foundation Apex Pipeline Solutions is built on.

BHP SOUTH FLANK — INFRASTRUCTURE DEVELOPMENT

WESTFORCE CONSTRUCTION · PILBARA, WA

HV transmission & distribution networks, communications and LTE infrastructure, earthworks and mining support infrastructure for one of the world's largest iron ore operations.

RIO TINTO BROCKMAN BS1 — PIPELINE INFRASTRUCTURE

PIPELINE TECHNICS / NRW · PILBARA, WA

Poly welding, pipeline installation, earthworks and supporting civil construction activities for the Brockman BS1 project.

ALKIMOS SEAWATER DESALINATION PLANT

WATER CORPORATION · ALKIMOS, WA

Construction and installation of major water infrastructure, including pipeline systems and associated services for the desalination plant.

APA GROUP — GAS MAINS REPLACEMENT WORKS

DIONA CIVIL ENGINEERING · ADELAIDE, SA

Civil works for gas mains replacement — excavation, trenching, service installation, reinstatement and traffic management in live urban environments.

FMG IRON BRIDGE & CHICHESTER HUB

WESTFORCE CONSTRUCTION · PILBARA, WA

Civil construction across the Iron Bridge Magnetite Project and Chichester Hub — earthworks, drainage, infrastructure preparation and mine support works.

WELSHPOOL RD & LEACH HWY INTERCHANGE

GEORGIOU / WESTFORCE · PERTH, WA

Underground services and civil infrastructure for a major road interchange upgrade, working within live traffic and high-volume construction environments.

ARC Plant Hire / QBirt · Northern Territory

SECTORS WE DELIVER ACROSS

Iron ore & resources · Water & desalination · Gas infrastructure · Renewable energy & wind farms · Lithium & minerals processing · Road & highway infrastructure · Remote camps & accommodation · Defence & national resilience facilities.

INDUSTRY STANDING

10

CLIENTS & INDUSTRY PARTNERS

Our directors and teams have delivered works for, and alongside, many of Australia's leading resource companies, head contractors and infrastructure owners — a network of relationships Apex Pipeline Solutions continues to build on.

RESOURCE & ASSET OWNERS

BHP	RIO TINTO	FORTESCUE METALS GROUP	ROY HILL
APA GROUP	WATER CORPORATION	MINERAL RESOURCES	BCI MINERALS
ENEL GREEN POWER	SYNERGY	GEMCO	DEFENCE — NATIONAL RESILIENCE

SAFETY, QUALITY & VALUE

WHY PARTNER WITH APEX

11

01

SAFETY IS NON-NEGOTIABLE

Our directors have maintained strict safety and quality standards across Tier 1 mining and infrastructure projects. We integrate seamlessly into client safety management systems and bring a safety-focused mindset to every crew we mobilise.

02

QUALITY WORKMANSHIP

Built on practical field experience and strong technical knowledge, we deliver high-quality outcomes — from poly welding and pipeline installation to earthworks and finished civil infrastructure.

03

RELIABLE & RESPONSIVE

We reduce client pressure by supplying dependable personnel, well-maintained plant and professional project support — scaled quickly to short-term, shutdown and long-term requirements.

04

METRO & REMOTE READY

Proven delivery across Perth Metro, the Pilbara and regional Australia — equally at home in live urban environments and large-scale FIFO mining operations.

WATER TREATMENT PLANT — PROCESS PIPEWORK & FIT-OUT

OUR COMMITMENT

Professionalism, safety, reliability and quality workmanship — delivering practical solutions and successful outcomes at every stage of construction and infrastructure delivery.

READY WHEN YOU ARE

Whether you need a subcontract delivery partner, skilled labour or plant on short notice, Apex Pipeline Solutions is ready to mobilise. Talk to our team about your next civil, mining or pipeline package.
